May 9, 2018

It is with a heavy heart I am announcing that FusionInvoice is in the process of closing its business operations.

I sincerely appreciate all of you who have joined me on this journey and I thank each one of you for your part in providing life to the product. Personally speaking, this journey has lasted nine years in one form (https://web.archive.org/web/20110407081259/http://www.myclientbase.com:80/) or another (https://web.archive.org/web/20140209040850/https://fusioninvoice.com/) and it's time for me to move on to the next chapter of my life, whatever that might be.

If any of you would like to maintain the project as FOSS, please feel free. Be sure and replace the root license file and the copyright notices in the project files.

I will continue to provide email support for an undetermined amount of time for those of you who may still have unresolved issues.

Sincerely,

Jesse
